## February 2023 Newsletter

### I. Administration Updates

#### A. Roster Updates

1. Rosters should be updated whenever there is a change within your membership. The next deadline is important for all final changes, which is May 1st 2023, which will impact your grade reports. If they are not removed or have filled out a membership form, this will be reflected then.
2. **FSCL Roster Versus Boilerlink Roster**
  - a) FSCL Roster
    - (1) The official roster where members sign an agreement to allow grade releases and receive communications from the office.
    - (2) How to View: Email [purduefscl@gmail.com](mailto:purduefscl@gmail.com) or contact your office liaison.
      - (a) Members will see their submission as pending on [boilerlink form submissions](#), this means that they are active in your organization. They are only approved/denied once they are no longer members for whatever reason.
    - (3) How to add members: have that member fill out a membership form:  
<https://boilerlink.purdue.edu/submitter/form/start/24702>
      - (a) If a member feels that they filled out a form or had a form denied, they can also read this manual to learn how to resubmit their membership form:  
<https://engagesupport.campuslabs.com/hc/en-us/articles/360018148871-Resubmitting-a-Denied-Submission>.
    - (4) How to remove members: please email [purduefscl@gmail.com](mailto:purduefscl@gmail.com) the members that need to be removed along with the rationale (transferred, dropped, removed, graduated, etc.).
  - b) BoilerLink Roster
    - (1) This roster is an interface for your members to be able to submit APFs and have a public facing roster
    - (2) This roster is not managed by FSCL and is not the official roster for which we track FSCL members.

### D. **Fraternity, Sorority, and Cooperative Leadership Institute (FSCLi)**

1. Purdue University has created a custom designed curriculum in collaboration with RISE Partnerships to offer a multi-day leadership development experience for members of the fraternity, sorority and cooperative community. The institute will challenge students to think about the systems that are present, and ways to improve the community. Through small and large group discussions, and activities students will develop a plan of how they will create change in their organizations and community. This event takes place the week after finals in the spring semester.

### III. **“Spring Fever” and Spontaneous Gatherings**

- A. As the spring weather brings longer and warmer days, we encourage all groups to develop a plan to address spontaneous gatherings either at an organization house, off-campus residence or satellite houses. Preparing for potential gatherings around big events (IU vs. Purdue games, NCAA Tournament, and sunny and 60 degree weather) are very important when students have spent the majority of the last 3 months indoors with cold weather. Ensuring you have responsible and sober members present and prepared to address issues, talking through a response plan with your leadership team and advisors, and communicating expectations to members prior to the event are very helpful. If you have any questions or would like to discuss your preparedness with our staff or other campus partners, please let FSCL Team know.
